CLOSEST SCHOOLS \_\_\_\_\_ HAVE YOU LED A 4-H CLUB BEFORE? \_\_\_\_\_

The volunteer 4-H club leader helps youth grow and develop. The basic requirement is the desire to help young people help themselves. Technical skills in the various projects may be learned through leader trainings, publications, workshops and activities. The 4-H projects are the tools which adult leaders use to help youth learn and develop. The 4-H projects below are for youth grades 4-12, except for 4-H Adventures, which is for K-3rd grades. Some 4-H projects need new leaders to start clubs.

If you are interested in leading a 4-H club or assisting with a group (co-leader), please mark the project areas below which are of interest to you. Please indicate if you could help on a one time only basis such as being a resource helper/speaker or with an after-school club.
