

More Than Flying

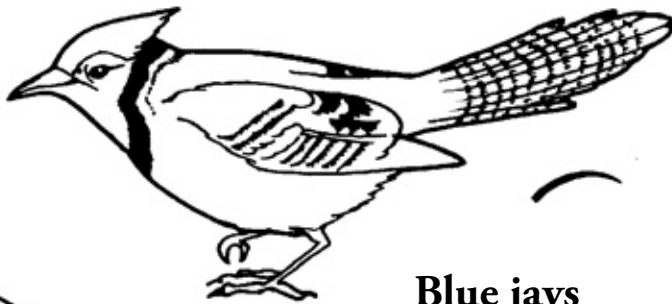

What Birds Do

Some birds hop.

Robins

Blue jays

Juncos

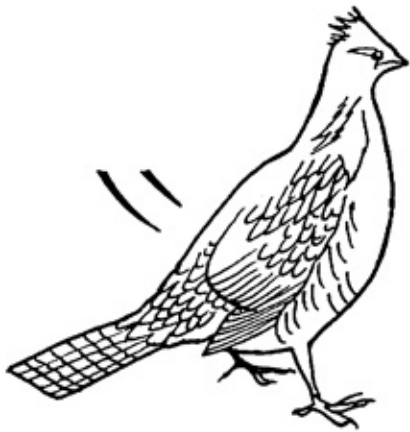

Pheasants

Some birds can surprise you by flying up right beneath your feet with a “whirr.”

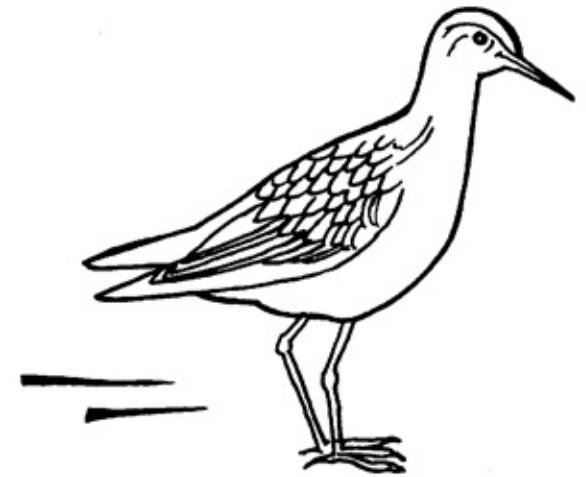

Some birds run.

Quail

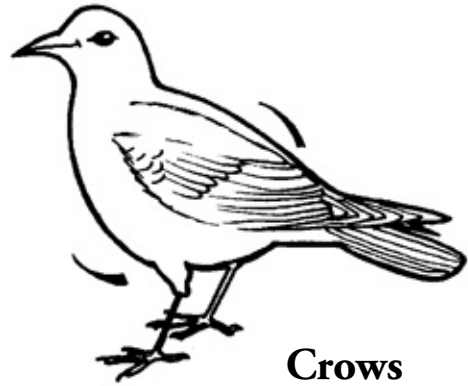

Grouse

Sandpipers

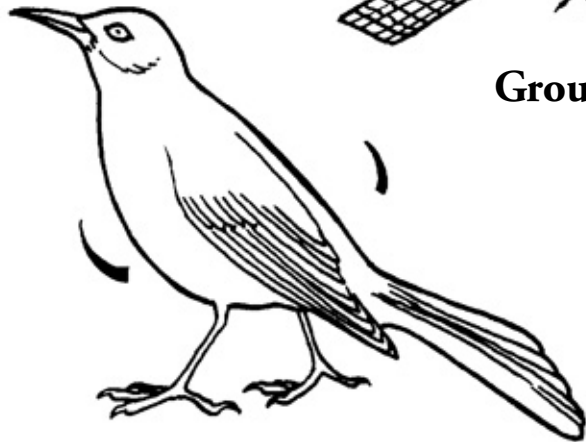

Other birds walk. They sway back and forth.

Crows

Grouse

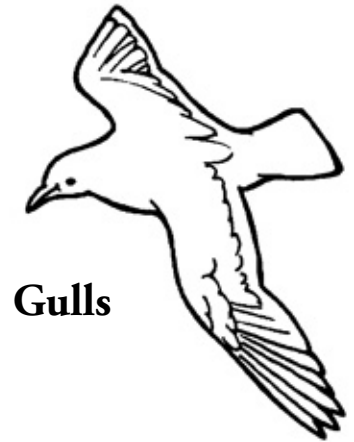

Grackles

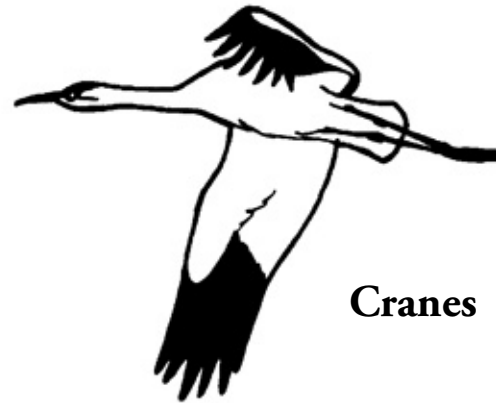

Some birds fly by soaring and gliding high above the trees.

Hawks

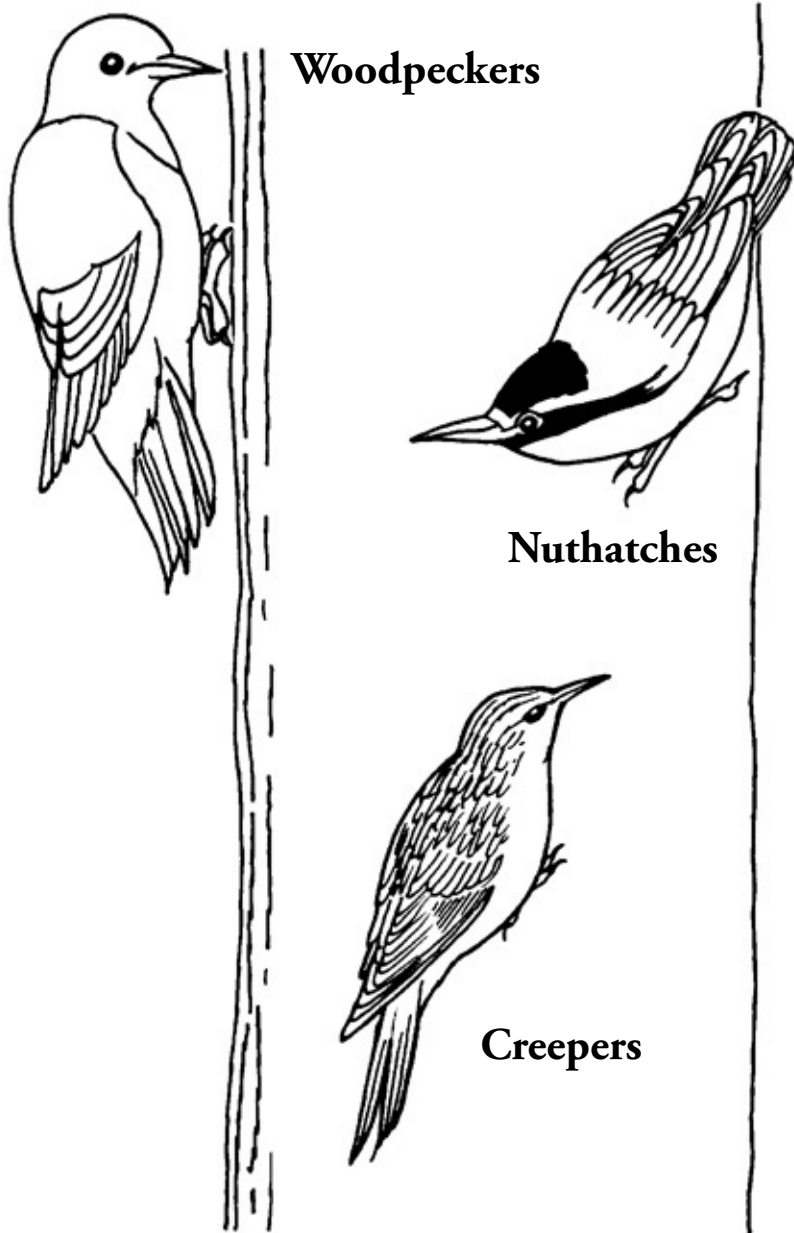

Gulls

Cranes

Some birds like to perch on tree trunks instead of on tree branches.

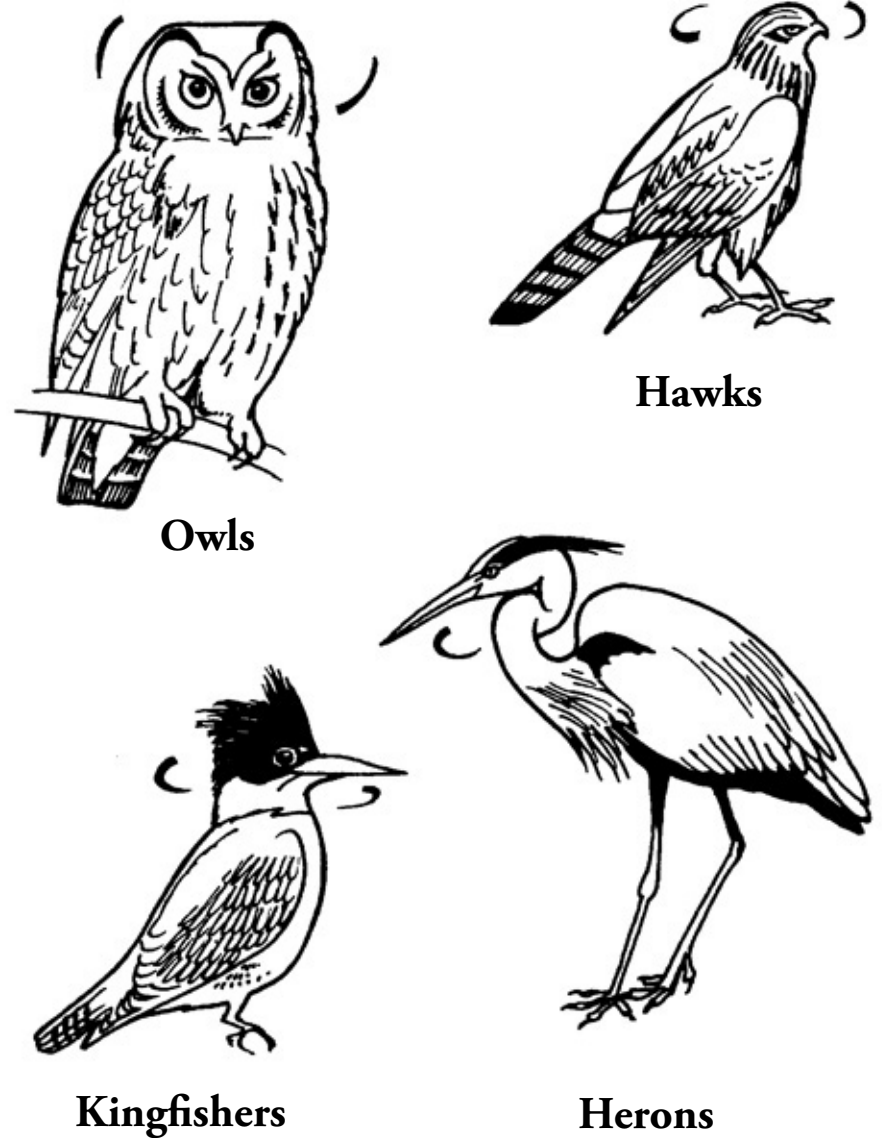

Some birds can stand very still. They only move their eyes and heads.

Woodpeckers

Nuthatches

Creepers

Hawks

Owls

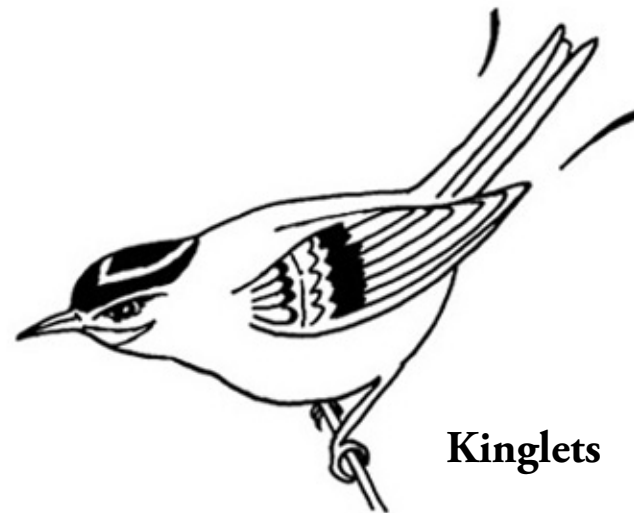

Kingfishers

Hérons

Other birds can't stand still.
They have to flick their tails or wings.

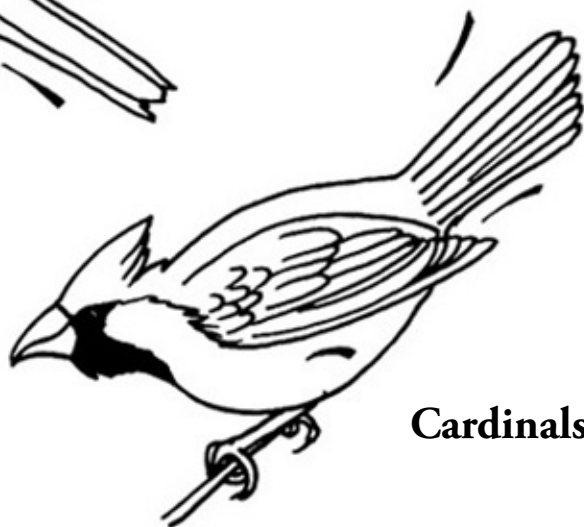

Juncos

Kinglets

Chickadees

Cardinals

Sparrows
