

2003

Oregon County and State Agricultural Estimates

Special Report 790 / Revised March 2004

OREGON STATE UNIVERSITY

EXTENSION SERVICE

2003 Oregon County and State Agricultural Estimates

Oregon Agricultural Information Network (OAIN)
Extension Economic Information Office
Department of Agricultural & Resource Economics
Oregon State University

This report provides a quick overview of Oregon's recent crop and livestock production. The following pages include 2003 preliminary estimates for production and value. In addition, there are revised estimates for 2002 and 2001. Preliminary or first estimates are revised as needed when updated information is received. All of the data reported here were in our database as of January 21, 2004. We collect only farmgate level data. That means that no transportation charges or government payments are included in our price estimates.

Web access is provided for you to review and download the publicly available numbers that we update periodically in our database. The URL for our homepage is: <http://ludwig.arec.orst.edu/econinfo>. This publication, as well as earlier versions, can be obtained by clicking on the "Commodity Data Sheets" button on our homepage and then clicking on "All Commodity Summaries."

To see any portion of our database accessible to the public, you may click on the homepage button, "OAIN Databases." No username or password is required; just click on the "Next" button below the login boxes. You may then bring up preformatted reports on the menu provided or click on "User Defined Report/Query" to create your own tables. These tables may be downloaded for printing or you may cut/paste them into an EXCEL spreadsheet for further analysis.

We try hard to protect confidential data from being viewed by agricultural industry members or the general public. That is done by hiding them within our database or by combining them with other commodities in county, regional, or statewide summaries. Our definition of confidentiality is similar to that used by the Oregon Agricultural Statistics Service, USDA: any data that represent fewer than three producers or one producer with 60 percent or more of the identified production are confidential.

The data we provide are obtained from a team of about 70 Extension agents and specialists from around the state. They are knowledgeable about selected crop and livestock production in the counties that they serve. These numbers reflect the best judgment of these OSU faculty members with respect to commodity production, prices, and usage patterns over time. The data represent overall annual values. It is important to recognize that their choices for aggregating data may shift the gross farm sales ranking of specific commodities and sectors.

Commodities such as some livestock forages are frequently produced, in part, for on-farm use. A single price estimate is made for each county's production regardless of whether it is sold in an open market environment or consumed as an input to the production of other commodities, e.g., beef cattle, dairy cattle, or sheep. The value of production estimate reflects the entire value of the commodity without regard to whether it is sold or consumed on-farm. The percent of sales for the commodity is also estimated. That percentage is multiplied by the value of production estimate to derive the estimated value of sales. Thus, for commodities that are consumed on-farm in other enterprises, the value of production would be significantly higher than the value of sales.

A special thank you to Robert Clark, Dixon Creek Software, Corvallis, Oregon. Mr. Clark was the programmer who created the software necessary to make the OAIN system operational. We are now able to collect and disseminate data electronically through our Website. He continues to provide technical support and improvements for our system.

Agricultural Commodity Sales Oregon, 2003p

2003p Sales by Commodity

\$1,000

Field Crops	185,438
Grains	160,478
Grass & Legume Seeds	287,729
Hay & Forage	205,685
Nursery & Greenhouse Crops	673,315
Small Fruit & Berries	98,171

Oregon Agricultural Estimates for Selected Commodities, 2003p *(continued)*

Commodity	Number of Inventory January 1	Quantity Sold*	Value of Sales
Livestock & Poultry	<i>Head</i>	<i>Units</i>	<i>\$1,000</i>
Cattle	1,632,800	(X)	543,048
Hogs & Pigs	72,700	108,564 head	8,801
Sheep & Lambs	294,900	(X)	15,839
Broilers		18,304,500 head	36,787
Chicken Eggs	2,618,600 layers	64,957,000 dozen	43,016
Wool	226,600 shorn	1,567,843 lb	570
Mink	47,200 females	223,000 pelts	6,387
Honey	49,500 hives	(X)	3,239
Horses & Mules	123,600	(X)	20,099
Dairy Products	113,810	22,164,100 cwt	282,030
Other Misc. Livestock	(X)	(X)	18,322
Total Livestock & Poultry			978,138
Total Agricultural Sales			3,465,784

6

**Production and value estimates are aggregated up from individual county data. Livestock such as cattle and sheep may be present in a given county for only some portion of the year. For these commodities, the production and value are based on the value added while the livestock were present in the county, rather than on the number of animals sold.*

© 2004 Oregon State University. This publication may be photocopied or reprinted in its entirety for noncommercial purposes.

The Oregon State University Extension Service educates Oregonians by delivering research-based, objective information to help them solve problems, develop leadership, and manage resources wisely.

Extension's agriculture program provides education, training, and technical assistance to people with agriculturally related needs and interests. Major program emphases include food and fiber production, farm business management, marketing and processing of agricultural products, resource use and conservation, and environmental preservation and improvement.

This publication was produced and distributed in furtherance of the Acts of Congress of May 8 and June 30, 1914. Extension work is a cooperative program of Oregon State University, the U.S. Department of Agriculture, and Oregon counties.

Oregon State University Extension Service offers educational programs, activities, and materials—*without regard to race, color, religion, sex, sexual orientation, national origin, age, marital status, disability, and disabled veteran or Vietnam-era veteran status*—as required by Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973. Oregon State University Extension Service is an Equal Opportunity Employer.

Revised July 2003. Revised March 2004.
