### 4-H LARGE LIVESTOCK RULES

#### **Entries and Eligibility**

1. To be eligible to participate in the 4-H livestock classes members must have a 4-H Health / Code of Conduct form and an Animal Exhibitor Agreement form, signed by the 4-H leader, parent or legal guardian and the participant, on file with the Extension office. These must be submitted with the entry form.
2. **STALL/PEN FEES:** Fees will be charged for 4-H entries \$5.00 each per animal. Exceptions to this policy will be made only on the basis of financial hardship and at the discretion of the appropriate 4-H superintendent in consultation with the 4-H Extension Agent. Stall/Pen fees are non-refundable.
3. The 4-H Livestock Advisory strongly recommends that before participating in 4-H Livestock classes, Juniors and First Year members complete step 1 of their 4-H Animal Science Advancement Program, Intermediates steps 1 and 2, and Seniors steps 1, 2, and 3. Advancement guides are available online and at the Extension office.
4. A member may enter and bring up to two animals per class, and a maximum of five animals per project area. All animals must have been carried as a 4-H livestock project. Exceptions will be at the discretion of the species superintendent with the concurrence of the Overall Livestock Superintendent
5. All Sheep and Goats must comply with the identification requirements of the USDA Scrapie Eradication Program. USDA agents may inspect livestock brought to the fair for compliance.
6. Members must enter one showmanship contest per project area, and must exhibit their own animal, unless previously excused by the project Superintendent. All showmanship animals must be shown in their respective breed or market classes.

7. In the breeding classes, only hogs must show papers to verify that they are purebred. Other project areas do not require papers to enter the class, although some sponsored awards may only be available to registered animals. An animal that is a combination of two or more breeds will be shown in the crossbred class. When purebred females with crossbred produce are shown in the dam and produce class, they shall be shown in the class designated by breed of dam.
  8. If a member becomes ill or is injured and cannot attend fair, his or her animals may be shown in breed or market classes by another 4-H Livestock member only with the approval of the Resolution Committee. Members should contact the 4-H Extension Agent to schedule a meeting with the Resolution Committee.
  9. Members wishing to exhibit livestock at the State Fair must have received a purple or blue ribbon rating in either showmanship or conformation in that species. Herdsmanship, age, and sportsmanship will also be considered in the selection. In situations where more members are eligible than the county quota allows, record books and interviews may be required in determining selection. Members selected to represent the County must submit a State Fair entry form by 7:30 pm on the Friday of Fair week and attend the mandatory State Fair Orientation meeting. Only 4-H project animals in the possession of the member as of **JUNE 1** of the current year may be exhibited at State Fair. Only one animal per class may be entered in State Fair.
  10. 4-H members wishing to participate in the auction must comply with auction rules.
  11. All market animals must have copies of 4-H Health Record available for Superintendents review if necessary during the fair.
6. If a member's only project animal dies or is not healthy enough to be shown at fair, that member may be allowed to show another animal. The animal to be shown must be entered in Fair. This arrangement must have the approval of the appropriate superintendent. Conditions which need to be met are: animal died between ownership deadline and County Fair, no other project animals at home to show, and written verification from a veterinarian certifying the death or illness of the animal. Animals that were weighed in for the auction cannot be replaced with another animal.
  7. Animals must be shown and cared for by the 4-H MEMBER beginning by **JUNE 1** of the current year through the duration of County and State Fair. Failure to do so may disqualify the animal as a 4-H project and result in withdrawal of any 4-H awards and premiums earned.
  8. At the fair, 4-H members must fit and show their own project animals, including those that are cross-entered in open class. If a member has more than one animal in a class, another 4-H member may show the other animal. If a member has scheduling conflicts with other youth competitions during the fair, they may ask the superintendent for permission to have another 4-H member show their animals.
  9. Adults may assist youth in fitting, caring for and/or handling 4-H livestock **ONLY** if the superintendent, for the health and safety of the 4-H member, deems the assistance necessary. Superintendents have the responsibility to determine that help or assistance is educational and demonstrational in nature. 4-H members must be present when an adult is assisting with the livestock exhibit.

#### Project Animals

1. 4-H members must have owned or leased any project animals they exhibit since **JUNE 1** or the spring weigh-in dates, whichever is earliest. Members with leased animals must submit the Clackamas County 4-H Record of Animal Lease form to the Extension office by **JUNE 1**. All leased animals must be approved by the Livestock Advisory Committee. The Record of Animal Lease form is available from the Extension office.
2. Members may only have leased animals in project areas where they do not own animals. Members may have only one leased animal in a project area (a female with offspring still nursing at county fair will count as one animal). Exceptions are made for members who are leasing one or more animals as part of a recognized breeding "starter program": they may also exhibit breeding or market animals that they own.
3. As outlined in the 4-H and FFA Memorandum of Understanding, a member may not show the same animal in 4-H and FFA.
4. A 4-Her may share one animal at County Fair (if they do not have any other animals in that project area). The two 4-H members who share an animal must decide who will enter and show it in conformation classes. Both may show the shared animal in showmanship if they can be in different classes. The members must be identified on the entry form and must be enrolled in the project area by the project enrollment deadline. Animals may not be shared at State Fair.
5. If an animal is registered it must be in the name of the 4-H member in accordance with the rules of the Breed Association. Registration in a farm or family name is acceptable if the 4-H member's animals have been designated at the beginning of the project.

#### Barn Rules

1. **ALL LIVESTOCK MUST BE IN THE BARN BY 8:00 PM, MONDAY, AUGUST 15, 2011**
2. On arrival at the fairgrounds, all livestock will be checked for general health and external parasites by the superintendent or person designated by the superintendent. Animals not meeting health and safety rules will be sent home. Any animal dismissed from the fairgrounds will not be allowed to return.
3. Animals that are out of control or dangerous to fairgoers will be sent home. The superintendent may ask that members demonstrate the ability to safely handle and control their animals.
4. Bedding, feed, and barn equipment must be provided by the exhibitor.
5. Animal areas must adhere to fire codes. Aisle widths, access to exits, and correct use of electricity will be strictly enforced.
6. Pens will not be taken down or used to store tack or feed unless approved by the Superintendent.
7. No automatic watering devices are to be connected to hose bibs in the livestock barn.
8. All livestock trailers parked on the Fair Grounds will have the name of the owner and the species on a tag placed on the jack handle or hitch of the trailer. All trailers parked on the fairgrounds may incur a parking fee. Tags will be given at the Livestock office when fee is paid.
9. Paint for pens and show rings will be available during Saturday setup **ONLY**. No painting can be done on Sunday or Monday.
10. ALL 4-H pens must be cleaned by 8:30am **DAILY!**
11. Good Herdsmanship (giving proper care to animals, cleanliness of pens and aisles, etc) is required of all 4-H participants.

12. Any displays will be educational and pertinent to the project and/or fair theme.
13. Beef and Dairy Cattle must be tied with halter and neck rope when stalled in the barn or tie outs.
14. All exhibits will be released in accordance with the 4-H Schedule of Events. No vehicles will be allowed into the barn area, or on any roadways leading to the barn areas prior to release time. The Fair Board urges your cooperation so that the release of animals can be accomplished in an orderly manner with the least possible delay for everyone.
15. All Open Class rules and regulations shall apply in 4-H departments unless the rule is specifically replaced by a 4-H rule.

## MASTER SHOWMANSHIP CONTEST

**Adrienne Lulay, Coordinator**

The purposes of the Master Showmanship contest are:

- for members to increase their knowledge and showmanship skills in animal science
- to provide members an opportunity to meet and interact with members in other project areas, and to foster greater appreciation for projects other than their own
- to show the public a broader picture of the 4-H animal science program

Study materials will be kept in the livestock office. A written knowledge test will be given prior to the showmanship contest.

Livestock participants will show the same animal that they used in their project championship, unless excused by the superintendent. Although grooming will not be scored, animals should be groomed appropriately for a showmanship class. The participants should take pride in the appearance of their animals and in the 4-H program, as the contest is watched by the general public.

Champion Junior Showman, Champion Intermediate Showman, and Champion Senior Showman from each livestock project area (beef, sheep, swine, dairy cattle, pygmy goat, meat goat, dairy goat, fiber goat, llama) will compete for the Master Showmanship Grand Champion and Reserve Grand Champion Junior, Intermediate, and Senior Showman honor. Junior, Intermediate, and Senior Showmen will not compete against each other. A 4-H member will be eligible to win the Master Showmanship championship only once with the same project (kind of livestock) in the same age group. If the champion showman for a particular project has won the Master Showmanship award for his/her age category previously, the next highest placing eligible showman will represent that project area.

## LIVESTOCK HERDSMANSHIP CONTEST

**Judging Hours 10:00 am – 6:00 pm**

Herdsmanship contests help each club member to be courteous, neat, safe, and orderly and to take proper care of their animals. Each club will be judged twice daily and scored on a point basis. Herdsmanship will be judged at varying times each day so 4-H members should keep good herdsmanship from morning until evening. There will be a Champion and Reserve Champion Herdsmanship award for each barn section.

Scoring Criteria for Herdsmanship

CLUB MEMBERS:

Club members are doing all cleaning of the area around animals. Are friendly toward others in the club. Show courteousness and helpfulness to the public and other members. Member's appearance is neat. There is someone on duty at club area. No roughhousing in barn.

ANIMALS:

Animals secured properly (neck ropes on and pens secured) and clean. **Animals fed and watered regularly, with adequate fresh, clean bedding.** Water buckets secure (beef, not left in stall; sheep and goats clean and secure). **Swine: Loose feed pans must be removed by 10:00 am and after evening feeding (except for hanging feeders, which must be properly secured.) Beef: Hay bags are not allowed.** Feed and hay stored safely and neatly away from spectators and animals.

BARN:

Exhibit cards on display, and displays neat and orderly. Wheelbarrow properly kept and stored (counted down if not emptied when full). Equipment stored in show boxes and out of aisles. Electrical equipment kept in a safe and secure location. Radios, tape players, etc. may be used if volume is kept low (SUPERINTENDENTS HAVE AUTHORITY TO SUPERVISE VOLUME).

4-H members are to do their own work. Assistance from leaders, parents, or other adults will be counted against the club effort for herdsmanship points.

## 4-H CLUB SERVICE AWARDS

Community Service, broadly defined, is service performed above and beyond what is expected for general herdsmanship. Examples follow, but are NOT limited to:

- Assisting with set-up and/or tear down for shows
- Keeping community barn isles watered and debris free.
- Keeping public areas outside barns clean.
- Assisting with fair set up.

Procedure:

- Obtain a green slip from the Livestock office: Fill out with a complete description of the work done.
- Find a leader, superintendent, or parent, to sign off on the green slip. Turn in to Livestock office.
- The slips will be collected and points tallied by the Community Service judge(s). The judge will determine point value in relation to amount of work and effort required. It is not necessary for the member(s) to fill out the point allotment unless a point value list exists for the work done. Some restrictions may apply.
- Awards will be given at the award ceremony on Sunday. There will be divisions for small, medium, and large club.
- Note: Herdsmanship and cleaning up after yourself is not to be confused with Community Service.

**SWINE  
MIKE BRUCK & JASON WILLE, Co-Superintendents**

On arrival at Fairgrounds, all swine will be checked for hog lice and eggs by division superintendent or designated representative. ALL HOGS MUST BE FREE OF DIRT FOR VISUAL INSPECTION BY A PERSON DESIGNATED BY THE SUPERINTENDENT. HOGS WILL ONLY BE UNLOADED AT THE WASH RACK AREA WHERE INSPECTION WILL TAKE PLACE BEFORE HOGS MAY ENTER THE BARN. Any animal found to have lice or eggs will be quarantined to the wash rack and will be sprayed or dusted to control such by owner, and owner will take any other measures as directed by the Swine Superintendent. No swine will be allowed in the show or sale ring that shows signs of lice or eggs. Any swine exhibitor who does not cooperate with the Swine Superintendent, Livestock Superintendent and the attending Fair Veterinarian on the control of hog lice, will be asked to immediately remove their animal(s) from the Fairgrounds. Swine will be permitted to enter the fairgrounds on Sunday between 4:00 and 9:00pm, and Monday from 9:00 am to 8:00 pm.

Market gilts may not transfer to 4-H breeding stock classes at time of Fair. Gilts to be shown in breeding stock classes must be entered before the 4-H entry deadline. The same animal cannot be shown in both breeding and market classes. 4-H members with breeding stock may show in both 4-H breeding and open class swine, per rule #8 in the 4-H Large Livestock Rules, provided they have met the fair open class entry deadline.

Sows and fall gilts entered into the fair will only be allowed in showmanship if this is the only project animal that the exhibitor has entered.

All Purebred Swine must meet Breed Registration Requirements. NO PAPERS PENDING WILL BE ALLOWED.

4-H members are eligible for the "Litter of Pigs" award - see open class swine section.
