

2018 NORTH CENTRAL LIVESTOCK ASSOCIATION BULL TOUR

FRIDAY, APRIL 13, 2018

Centerville – Goldendale

Our tour allows our producers to showcase the unique aspects of each of their operations. Each year's tour stops bring to us something unique. This year we will see different rangeland management practices, breeding programs, marketing strategies and handling facilities at each stop. Our hosts will also have the opportunity share with us the rich history of their operations.

There is something in the Bull Tour for everyone. We travel through some of the most beautiful landscape the country has to offer, so bring your camera, and come helps us support the youth of our community through our scholarship fund!!
