

4-H Fall Fair

Parent Workshops November 11th, 2009

1:00-2:30PM What's That Tree 101

This session will assist participants in identifying several of our local native and introduced horticultural trees found around the area. Spend time learning in a logical, progressive method how to identify a particular species. We will also spend substantial time relaying some common mis-identified names, rumors as to growing conditions that lead to healthy trees and a few "kernels" of wisdom to impress your neighbors.

Taught by: Steve Bowers, OSU Forestry Extension Agent

2:30- 2:55 PM Break

3:00-4:30PM (Two class choices, please choose one)

1) Gardening Basics

Do you enjoy gardening? Come and join us! This is a basic gardening program that will cover soil preparation, irrigation techniques and plant propagation. The class will also take a look at pest management.

Taught by: Leo Grass, OSU Extension Master Gardner Volunteer

2) Cloverbuds Program: What it has to offer

Come and learn more about the wonderful learning opportunities for your K-3rd grader. 4-H Cloverbuds program is filled with hands-on learning tailored for the younger age group. Experience hands on activities that you can teach to your child.

Taught by: Teresa Middleton, OSU Extension 4-H Program Coordinator

Return your registration form to: Douglas County OSU Extension Office PO Box 1165 or 1134 SE Douglas Avenue, Roseburg, OR 97470
