
Mineral Nutrition for Beef Cattle

- Wednesday, November 12, 2008
- During the Jackson County Stockmen's Association meeting (see below for topic of discussion)
- Elmer's Restaurant, Medford
- No host dinner 6:00 pm
- Program to follow

Topics include: Mineral requirements of different classes of cattle, feed mineral content, mineral supplements, form and availability of minerals, excesses and deficiencies. Program includes information on how to perform a mineral assessment for your animals.

The primary goal of the beef cattle operation is to *efficiently* produce beef cattle. Is your beef ranch operating at a level of efficiency you want? Come join the class to learn, review, and discuss mineral nutrition

Presentation by Shelby Filley, OSU Extension Service, Regional Livestock & Forage Specialist (Phone: 541-672-4461 / E-mail: shelby.filley@oregonstate.edu)

No registration or fee required.

Agriculture, 4-H Youth, Family & Community Development, Forestry, and Extension Sea Grant Programs. Oregon State University, United States Department of Agriculture, and Jackson and Josephine counties cooperating. The Extension Service offers its programs and materials equally to all people.

*****The Jackson County Stockman's Association*****
...will also be discussing a round table that some members attended on Oct. 14th regarding WATER! A flow path for the Future of Oregon's Water Resources
