

## *Reproduction in Beef Cattle*

- May 11, 2005, 3:30 PM - 5:30 PM
- JJ North's Restaurant, 1016 N. Riverside Ave, Medford
- Jackson County Stockmen's Association meeting follows (No host dinner 6:00 pm)

The primary goal of the Cow-calf operation is to *efficiently* produce a live calf every year. Is your beef ranch operating at a level of efficiency you want? Come join the class to learn, review, and discuss management activities that affect reproduction.

Topics include: Biological Cycle of the Cow, Calving Interval, Calf Weaning Strategies, Reproductive Physiology & Anatomy, Nutrition, Cow Body Condition, Bull Evaluation & Testing, and Reproductive Efficiency

Presentation by Shelby Filley, OSU Extension Service, Regional Livestock & Forage Specialist (Phone: 541-672-4461 / E-mail: shelby.filley@oregonstate.edu)

**Pre-registration and fee required.** Mail registration form to OSU Extension Service, P.O. Box 1165, Roseburg, OR 97470. Attention: Shelby
