Selling Logs From your Property

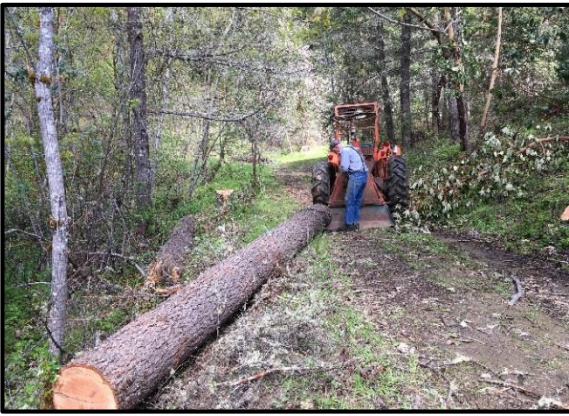

*An educational symposium
for landowners*

**October 27-28, 2017
Eugene, OR**

**Oregon State
University**

SELLING LOGS FROM YOUR PROPERTY - EDUCATION SYMPOSIUM

Selling logs is one of the most important decisions you face as a landowner.

Landowners log their property for a number of reasons. For some it's the culmination of decades of planning and hard work to produce a valuable crop. For others it might be a liquidation of an asset to meet a sudden financial need. Still others might be undertaking a thinning operation to improve forest health and habitat.

Logging is a high-stakes endeavor

with consequences that can last decades—this is not a time to cut corners! Timber is a valuable financial asset, YOUR asset, that took decades to produce—don't lose out on thousands of dollars by not getting a fair deal for your logs. Don't expose yourself to unnecessary liability or be left “on the hook” for someone else's mistake. Make sure your property looks how you want it when the job is done and don't risk unnecessary damage to your property that could take decades to restore.

Speakers will include:

Consulting foresters, experienced landowners, log buyers, loggers, and representatives from the OSU Extension Service and the Oregon Department of Forestry (ODF).

Symposium information

WHEN:

5:00 - 8:30 PM Friday October 27th &
9:00 AM - 5:30 PM Saturday October 28th
(Doors open 30 min prior to start time each day)
