

MOLD In Buildings

Assessment, Prevention and Resolution

4-Hour training. Available on DVD.

For those who work with single family and multi-family housing, schools, and buildings and are concerned about mold-related issues (contractors, inspectors, appraisers, realtors, maintenance personnel, building managers, HVAC, home owners and building occupants).

WHY DO WE CARE ? HEALTH EFFECTS OF MOLD

Allergy and asthma responses to exposure to damp and moldy environments.

What is known and not known about the health effects and risks of mold exposure.

**Harriet Amman, PhD. Washington Dept. of Health, Senior Toxicologist, 12 years,
Institute of Medicine, National Academies of Science Committee on Damp Indoor Spaces and Health**

MOISTURE AND MOLD IN HOMES AND OTHER BUILDINGS

What mold is, why and where it grows, how to inspect for mold growth conditions, what can be done practically, economically to remedy or prevent mold and moisture problems. Litigation risks, issues.

**George Tsongas. PhD., PE. Private consulting Engineer and
Professor Emeritus of Mechanical Engineering Portland State University**

MOISTURE RESISTANT CONSTRUCTION PRACTICES

Keeping water out of building envelope, vented rain screen wall, flashing details, window/door sealing, water-managed foundations, drainage, spot-vs.-whole house ventilation, ASHRAE standards.

Mike O'Brien, Green Building Specialist, City of Portland, Office of Sustainable Development
