

At last!

An easy-reference book for gardeners living west of the Cascades

Learn earth-friendly methods for creating a healthy, thriving garden.

Access month-by-month advice on planting, fertilizing, pruning, and more.

Personalize this advice by adding your own garden observations and notes on attractive journal pages, creating a permanent record of your garden.

Use the illustrated pages on local insects to help you increase the good ones and decrease the bad ones.

Enjoy original watercolors throughout.

All proceeds benefit educational programs of the Lane County Master Gardener™ Association, a nonprofit organization, and OSU/Lane County Extension Service.

Special thanks to QSL Print Communications of Eugene, Oregon, for help with this project.
