Worm Suppliers and Worm Bin Resources

Information

Worm Digest
Quarterly online magazine of worms and worm composting. A wealth of educational information and resources. Website: www.wormdigest.org

Happy D Ranch Worm Farm
Alan & Dorothy Benoy, (888) 989-1558. Great website with a worm discussion forum and educational resources. Mailing address: PO Box 3001, Visalia, CA 93278. Website: www.happydranch.com. They also sell worms and bins ($35.00/lb plus shipping).

OSU Extension Service Lane County Compost Specialist worm bin workshops.
Classes are held two times a year. The two-hour class covers the basics of vermicomposting and includes: instruction, handouts, a worm bin, bedding and worms; all that is needed to get you started! For more information contact the OSU Extension Service Lane County office or go to the OSU Extension Service Lane County website and download a registration form. Website: http://extension.oregonstate.edu/lane/gardens

City of Eugene Recycling and Solid Waste
Website: www.eugenerecycles.org
Website with good information on a variety of recycling/composting topics. Under ‘navigation’ on the left hand side of the page go to ‘composting.’

Other options include:
Red wiggler or composting worms naturally colonize debris piles in most gardens. Check the bottom of a winter compost pile, decaying leaf piles or animal manure piles (such as horse manure, alpaca or chicken). Ask a friend to let you scavenge their compost pile. It doesn’t take many red wigglers to get a worm bin going! They will double their population in 60 days! DO NOT use nightcrawlers. They do not survive in a worm composting bin.
