Stall locations for the Marion County 4-H Horse Show are assigned according to a lottery system. The names of each club in the county will be placed in a hat, and then drawn out to determine the order of priority. The first club drawn will get its first choice of stall location. The second club drawn will get its first choice of stall location if it does not interfere with the first club. The drawing will proceed until all clubs are assigned a priority number.

To determine the number of stalls to request, add the number of stalls for project animals to the number of feed and tack rooms needed. Special requests for stalls for additional horses (fees apply as below) must be made to the horse show superintendent. When listing your choice of stall locations, list by BOTH barn name and stall numbers (s). If you want your club on both sides of an aisle, list the stall numbers on each side.

BARN choices are: Horse Show Barn, Livestock Barn, and Race Barn. Attached are diagrams of the barns to help you choose your stall location.

My first choice of stall location is:

Barn: _____________________ : Stall # ___ through # __; and Stall # ___, through # ___.

My second choice of stall location is:

Barn: _____________________ : Stall # ___ through # __; and Stall # ___, through # ___.

My third choice of stall location is:

Barn: _____________________ : Stall # ___ through # __; and Stall # ___, through # ___.
