Following is a partial list of native grass suitable for SW Oregon (with a few sedges and rushes thrown in for good measure), based on information provided by Dave Steinfeld, Stone Nursery.

**Woodland mix**
(40-50% shade)

- Blue Wildrye (*Elymus glaucus*)
- California Brome (*Bromus carenatus*)
- Brome (*Bromus laevapes*)
- Columbia brome (*Bromus vulgarus*)
- Western fescue (*Festuca californica*)

**Meadow mix**
(Full sun)

- Needlegrass (*Stipa species*)
- California oatgrass (*Danthonia californica*)
- Idaho fescue (*Festuca idahoensis*)
- Sandberg bluegrass (*Poa secunda*)
- Junegrass (*Koleria cristata*)

**Riparian**

- Common rush (*Juncus effuses*)
- Swordleaf rush (*Juncus ensifolius*)
- Sedge (*Carex aquatilis*)
- Sedge (*Carex utriculata*)
- Bullrush (*Scirpus acutus*)
- Paniced bulrush (*Scirpus microcarpus*)

**Local resources for native grass information**
Dave Steinfeld, Stone Nursery, Central Point, 858-6100
Doug Kendig, Medford BLM native plants coordinator, 618-2285
Randy White, Jackson Soil and Water Conservation District, 776-4267
