Supplies

(These are items that will be used up, like vet wrap, showsheen, shampoo, absorbine, etc. Items purchased near the end of the year will not have a value change or depreciation.)

Date Purchased	Description	Beginning Value	Ending Value
Totals			
To calculate depreciation expense , subtract ending value from beginning value. Copy result to Financial Summary on last page			\$ (Item #3)

Inventory

List the value of all hay, grain, tack and supplies you own at the beginning of the year (Oct. 1, or when you join for the first time). Add items as you purchase them with beginning value, however items purchased near the end of the year will not have a value change or depreciation. Inventory includes all tack and equipment; it is okay to “lump” small items such as grooming supplies. Try to include serial numbers or distinguishing marks for large items. In case of theft, this will make recovery possible.
