

NORTH COAST FOOD GUIDE

FRESH LOCAL FARMS & SEAFOOD IN CLATSOP & TILLAMOOK COUNTIES

Revised 9/30/2009

Welcome to the North Coast Food Guide, giving you resources to locally grown and caught foods. Consumers can use the directory to find local farms, farmers' markets, stands, docks and other food and agricultural resources. The guide is a useful resource in location and celebrating the incredible diversity and bounty of our local food system. For the most current listings or to have your farm or business listed in this guide, call your local Community Action at (503) 325-1400 in Clatsop County or Food Roots at (503) 842-3154 x2 in Tillamook County.

Spread the word – Local food is GOOD!

What is Community Supported Agriculture? In basic terms, Community Supported Agriculture (CSA) consists of a community of individuals who pledge support to a farm operation so that the farmland becomes, either legally or spiritually the community's farm, with the growers and consumers providing mutual support and sharing the risks and benefits of food production. Typically, members or "shareholders" of the farm or garden pledge in advance to cover the anticipated costs of the farm operation and farmer's salary. In return, they receive shares in the farm's bounty throughout the growing season, as well as the satisfaction gained from reconnecting to the land and participating directly in food production. Members also share in the risks of farming, including poor harvests due to unfavorable weather or pests. By direct sales to community members, who have provided the farmer with working capital in advance, growers receive better prices for their crops, gain some financial security, and are relieved of much of the burden of marketing.
