Family Forest Owner Storm Damage Survey

The December 2-3 storm affected thousands of acres of forest on Oregon’s North Coast. How were you affected? Please take a few minutes to respond to this survey from the Oregon Small Woodlands Association (OSWA). The information will be used to assess the extent of the damage to family forest owners and to assist owners in finding the resources they need to address specific concerns.

YOUR CONTACT INFORMATION

Name _____________________________________________________
Address _____________________________________________________
City/State/Zip _____________________________________________________
Phone/Fax _____________________________________________________
Email _____________________________________________________

How many acres do you own?     _______
How many of these are forested?    _______
How many acres were impacted by wind   _______
What was the age of trees in each affected area?  _______
Do you have Streamside areas that were affected?   _______
(riparian areas, 100 feet or closer to stream)

What are your concerns regarding your forestland after the storm?

Forest Practice Rules
Damage to Roads
Forest Tax issues
Reforestation
Salvage & Potential Markets
