

20th Annual "Attitudes for Success" Conference March 9, 2010

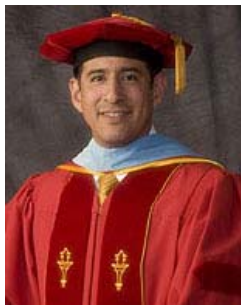

Keynote Speaker: Dr. Marcelo Vazquez

Topic: "Who You Will be in the Future, Starts Today"

Recognize the opportunities in front of you and inside of you, and act upon them now! Dr. Vazquez takes his audience on an evocative journey from a young insecure boy who never understood the meaning of the "Now," to an adult who reaches a life-long dream of receiving a doctorate degree.

From intimidation to confidence. From fear to courage. From death to living. And from low self-esteem to self-respect. Vazquez experienced both ends of a spectrum—one that has taught him to recognize and seize opportunities for success by taking positive action.

As a first-generation Bolivian-American from humble beginnings to graduate of the University of Southern California with a Doctorate in Educational Leadership, Vazquez challenges his audience to take what already exists inside of them and cultivate it toward helping them accomplish their dreams. Seizing the day, committing to who you are and spending every "dollar" of your time in the success you were destined to have.

Topics addressed in presentation include: **MOTIVATION—FACING FEARS—LEADERSHIP**

Exhibitors (Confirmed at Press Date)

Blue Mountain Community College
Boise State University
Bonneville Power Administration
