

Barn Owl Workshop

Learn to use barn owls and other predators for rodent control on November 17, in a workshop sponsored by the Wasco County SWCD. The class will be at the Columbia Gorge Discovery Center, beginning at 8 am and ending at 12 noon. There is no charge for the workshop, but come prepared to take a field trip to see owl boxes and raptor perches.

Direct seed producers are finding rodents are becoming more of a problem, since they stopped turning over the soil and breaking up tunnels and nests for the rodents, but this is also good practice for anybody.

Registration is required by contacting the Wasco SWCD at 541-296-6178 ext. 105.
