

Livestock Management Workshop

What: Livestock Management Workshop

When: Saturday, October 17th, 2009
1:00pm-4:00pm

Where: Tygh Valley School / Community Center

Cost: FREE!

Two hours in the classroom and an hour in the field will provide guidance for livestock management practices that promote animal health, build good relations between neighbors and add to your property's value while protecting the land and water quality. The content of this workshop applies to a wide range of livestock species including, but not limited to: horses, cattle, pigs, llamas, goats, and sheep. Presenters will come from Wasco County OSU Extension District, Oregon Department of Agriculture, and Wasco County Soil and Water Conservation District. **Bring your questions!**
