- Upcoming 4-H Family Event: Geocaching for Native Plants!

OSU Extension Turns 100!

2011 marks the 100th anniversary of Extension in Oregon! Be sure to check out the Centennial Events Calendar for information on commemorative events happening throughout the year. The 4-H contact for Centennial celebrations is Roger Rennekamp.

Several resources are available online to help you get into the OSU Extension Centennial spirit:

- Centennial t-shirts and lapel pins are available for purchase; Centennial stickers, bumper stickers, and writing tablets are available at no cost
- Extension County Quilt Project
- Extension Oral History Project
- Logos and posters to download for promotional use

Youth Community Action Grants Program

A pool of money is available for community-based projects initiated, designed, and run by youth 21 and under! Youth Action Grants Program will provide $1,000 to any youth in Portland who want to take action that makes the “Bill of Rights: Children” a reality! In order to submit an application, youth must also attend one of the upcoming required workshops: January 13th, 17th, or 26th.

Geocaching for Native Plants

Learn to use a hand-held GPS device as you embark on a treasure hunt for native plants! Geocaching is an outdoor activity in which people search for hidden items (“caches”) using geographic coordinates and GPS devices. In this 4-H Family Weekend workshop, led by OSU 4-H Faculty member Dave Stemper, participants will also discover historic and modern uses of treasured Pacific Northwest plants. Learn more here!

This workshop will be held on Saturday, February 5th from 10:00 AM to 11:30 AM at the 4-H Clubhouse at Alpenrose Dairy. Oregon Native Plant fact sheets and Geocaching handouts will be available for attendees to take home. Registration is required for this workshop.
