- 7:30 Beaverton-Hillsdale/Oleson Rd./Scholls Ferry Rd. Intersection.** This intersection is confusing, congested and the site of numerous accidents. A 1996 transportation study recommended a reconfiguration of the intersection and realigning of Oleson Rd. 600 ft. to the east for greater safety and better traffic flow. The county has recently executed agreements with ODOT and Metro which will allow the design phase of project to proceed. Patrick Oakes, Project Manager with Washington County LUT and Dave Simmons, with CH2M HILL will be here to discuss the project background and recent traffic data collection and survey work.
