CPO 6 meeting minutes for Thursday, August 5, 2010

- Open comments from Eric regarding THPRD
- Deputy Olson reminded everyone to make sure doors and windows are locked at night. Also lock your vehicles at night. Gang activity has remained active. Deputy Olson opened up for questions. He answered a few questions that were asked from the audience.
- TVF&R: Most calls they get are for medical responses. They had 391 calls for assistance. The car response to calls has been positive and has been has been doing well on responses. The cars are used instead of sending full size engine trucks. Most calls they have a response between 5-6 minutes. The only fires that are allowed that are open fires are a two foot pit with only wood used to burn. No garbage or other products are allowed. There is a red alert for any burning in rural areas due to dry conditions. Be careful with barbeque coals. Make sure you keep your smoke detectors working properly. It’s a good idea to have a smoke detector in your garage since there combustibles stored in there.
- THPRD - Winkelman Park at 175th and Kimmer Rd. David Lewis and Steve. 20 acres of land was donated. It needed to be developed within 5 years. The bond measure that was last passed was for the whole area of THPRD. Funding the development of the park will be in phases. It will be made into a field sport facility and a multi-function field. It will have baseball, soccer, football and lacrosse. It will have a bowl shape. There will not be stadium type seating at this time. It will have a dogpark, children play areas along with picnic areas. The phases will depend on future bond developments being passed. At this time they expect the cost of completing this park to be about $2.6 million. The first step should be developed by 2012.
- Liles Garcia – land use planning. For the most part, there has been little activity. A few new building permits have come up. General discussion took place. Liles brought up that Bethany project was the topic for the Planning Commission.
- The meeting ended 9:07pm
