Call to Order: Chair Andy Miller called the meeting to order at 7 p.m.

Announcements:
Steering Committee will meet 9/30 at 7:30 p.m. at Five Star Guitar.
Board of County Commissioners will meet 9/28 at 6:30 p.m. regarding Ord. 730. The 3 not 5 group will also be making a presentation at that meeting.
We have received an issue paper from DLUT in response to our letter on Ord. 730. Andy summarized it. It will be on the county website.
TVF&R is holding a neighborhood meeting on Oct. 14 at 7 p.m. at Findley School to discuss their proposed new station location.
The flashing signal at Bethany Blvd. and Laidlaw Rd. depends on demand. It will not flash during high traffic periods.

Meryl Lippman, PCC Public Affairs, spoke about their new Rocket Composter that will be dedicated on October 1 at 1 p.m. There are only four of these in the U.S. It has a 5-day composting cycle. It will be in Bldg. 3. PCC is also having a fall festival on Oct. 23 for the entire community and the composter will be demonstrated at that event as well. PCC has developed four options for the use of their bond funds. They would like to present these at our October meeting.

Nominations:
The following people have been nominated for the steering committee for 2010-11: Marty Moyer, Tricia Jensen, Kevin O’Donnell, Robert Bueermann, Mary Beth Cottle. Nominations are still open. We will vote in October.

Update on Bethany Blvd.: Bob McMillan, our CPO7 rep on the Project Focus Group talked about the project meetings so far. He encouraged all of us to go to the project website to review the drawings of four possible designs.

Safe Path to School: In Bethany, we have children being bussed to Springville School because there is no safe way to cross Springville Road. Virginia Bruce from CPO1 discussed how Cedar Mill went about getting the signal at Dogwood and Saltzman. She also gave us a short course on warrants and why a signal needs to be warranted. Extensive information is available at the National Transportation website. We can also access an article from the April 2008 issue of Cedar Mill News.

Active Transportation: Susan Peithman from the Bicycle Transportation Alliance spoke about her work in promoting pedestrian and bicycle transportation. She wants to get all of the players in the same room to talk about issues. She attends Washington County Coordinating Committee Active Transportation meetings and would like to see CPO representation on that group. They hold forums every two months to discuss issues and hear a speaker. In October their speaker will be Andrew Singelakis, new director of DLUT for Washington County. He will be speaking on health and transportation. She
pointed out that TPAC and JPACT are two committees that have clout. TSP for Washington County will be kicking off soon and will be important for us. She referred us to FHWA publication, “Designing for Pedestrian Safety.”

**Wrap-up:**
Moved we direct the Steering Committee to develop a letter addressing the staff response to our letter regarding Ordinance 730. The staff paper did not address the issues we presented. Our issues are still valid and staff did not address them. The motion was seconded and passed. 12 Yea, 0 No, 1 Abstain.

Adjourned at 9:10 p.m.

Marty Moyer, Recording Secretary
