AQUAPONICS

Friday, June 21, 2013
5-8 PM
ROCK FIELD FARM
FREE
FARMER TO FARMER TOUR—Open to the Public

Tour Rock Field Farm with owners, Angie and Kreg Boudro, who use an AQUAPONICS system* to grow high-quality vegetables with a fraction of the water and fossil fuels needed for most produce operations.

They sell their produce at grower’s markets, the Rogue Valley Local Foods, and through a winter CSA program (Community Supported Agriculture).

In addition to the tour, instruction and information, enjoy a potluck dinner with other farmers.

*Aquaponics, loosely described, is the combination of aquaculture and hydroponics. Aquaponics means many different things to different people, but it’s basically all about growing fish and vegetables in a symbiotic system. Fish and plants growing happily together.
