Want to learn how to identify the commonly occurring large mammals that inhabit your property? During this presentation we will take a look at identifying tracks and scat, creating or finding “tracks traps,” collecting hair samples, and tips on setting up game cameras.

Kim Aufhäuser has a BS in Wildlife Management from Humboldt State University and an MA in Experience-Based Leadership Training and Program Development from Prescott College. He worked as a Park Ranger in six different National Parks and has taught extensively in the areas of law enforcement, search and rescue, wilderness survival, and emergency preparedness.
