

# Hands for Larger Service

A JOURNAL DEDICATED TO ACTIVE CITIZENSHIP IN YOUR COMMUNITY.

## Service Learning

Service learning projects take community service to the next level! Not only will you identify and serve your community's unique needs, but you learn something new or develop a skill at the same time. These projects should be created in a way that you can continue to make a positive difference in your community over time and should emphasize participant learning throughout the process. Examples include taking a tour of the Food Bank when you donate canned goods or learning what can be recycled in your community and setting up a recycling program at your school.

### Assess Your Community's Needs

Are you seeking to make a lasting, positive impact on the community in which you live? Making a difference in your community does not just benefit the people around you, but it also builds your skills and character. This month, work as a club to create a list of all the needs you see in your community. Then, choose one that offers the opportunity to learn something new. Finally, plan the project!
