Become Tractor Safety Certified!

Hosted by the OSU Extension Service, the Youth Certification Course is designed to teach safety as it relates to operating tractors, machinery, and other farm implements. It includes classroom and tractor driving experiences.

REGISTER NOW!

And begin the online portion of the class prior to the start date.
Youth Tractor Safety and Certification Class will operate under the following conditions to minimize the risk of COVID-19:

- The program will deliver the classroom portion online and provide only site-based training for tractor and machinery operations.
- During the face to face portion of the class, there will be no more than 12 students on site at once. That would put 3-4 students at each station, which gives plenty of room to keep 6 feet between all students and the instructor. Participants will sanitize their hands each time when dismounting the tractor.
- Social distancing with 6 or more feet of separation between participants and instructor is required and will be monitored and enforced by an additional staff member.
- Face covering, safety glasses (prescription or sunglasses will suffice), and gloves for youth and instructors are to be worn.
- Hand sanitizers will be provided for frequent use.
- No food is provided, but bottled water will be available on site.
- Participants will sanitize their hands each time when dismounting the tractor.
- Participants should not come to class if they feel ill.

Schedule

Monday
8 am to Noon – Group 1 (12 students)
