

August 21, 2019

Last week our 4-H staff met and started planning our new 2019-2020 4-H year. Scheduling events, trainings, meetings, and whatever else needs to be put on a calendar is something we have to do well in advance. Of course, some things cannot be scheduled this far out and will be added later. I will be working on updating our annual calendar over the next few weeks and I will attach it once it is as ready as it can be.

Emergency preparedness is something we all became a little too familiar with during Snowmageddon early this year. In the attachment email, I have included a document sent to OSU employees in our Emergency Preparedness emails we get on a regular basis. The topic is 'Water in Disasters' and provides ways to prepare clean drinking water during a disaster. You never know when it may come in handy.

**Calendar of Events** (all events at the Extension Office unless otherwise indicated). You can also find our yearly 4-H calendar on our website at

Did you know it takes about two pounds of raw potatoes to make an eight-ounce bag of potato chips? I didn't until I read that tidbit on the Ag in the Classroom Calendar. It is a school calendar and has September 2019-August 2020. We have a few of the calendars at the office if you want one.
