Share what you did

- When you took your first photos, were any of them soft or blurry or tilted?
- What did you do differently this time?

Process

- Did the new technique make your photos sharper?
- If it didn't, do you need to practice more? What other reasons could there be for your photos to be blurry?

Generalize

- What other things do you do that would get better if you practiced them?

Apply

- How will these techniques help you judge other photos?
- Where can you find other expert tips on ways to improve your photographs?
