What I plan to do and why.

(For example: I plan to organize a successful community service project with our club to clean up our community park.)

What do I hope to gain from this project?

(For example: I hope to gain organizational and leadership skills. I hope to project a positive image of 4-H to the community.)

How do I hope this project will help others?

(Some ideas might include: I hope to assist our club leader by taking on this responsibility so that he or she does not have to. I hope to be a role model for the younger members in our club. I hope a clean park will give the community a sense of pride and a place to spend time.)
