SUSTAINABLE LAWN SCHOOL

Join Dr. Alec Kowalewski, OSU Extension Turfgrass Specialist, for a hands-on experience

A green space close to home. A place to relax with friends and family. Habitat for pollinators and beneficials. Build the knowledge and hands-on skills to get the most from your lawn.

- Practice using a dethatcher to restore a lawn, measuring irrigation rates, and scouting for pests.
- Get behind-the-scenes previews of OSU Department of Horticulture research into eco-lawns, drought-tolerant mixes, seeding date research and new cultivar trials.
- OSU Master Gardener volunteers: get continuing education credit and learn to answer lawn-related questions for the community!

Pre-registration required
$20 for current Master Gardener volunteers, open to the public for $30
