

# Sustainable Living Series

## Landscaping for Water Conservation

April 9, 6-7:30 pm

Severe drought requires creative solutions to our landscaping needs. This presentation will cover principles of waterwise landscaping, including the use of drought-tolerant plants, sprinkler schedules, and overall water conservation, as well as basic stormwater management.

**Kora Mousseaux** is the Community Water Resource Conservationist at Jackson Soil & Water Conservation District. Now in her eighth year in the District, she provides technical and financial assistance to landowners in Jackson County, to implement stewardship projects that protect and conserve water and other natural resources. Kora has a bachelor's degree in Environmental Studies from Southern Oregon University and has lived in the Rogue Valley for 24 years.

Join us online via Zoom on Tuesday, April 9. Register at <https://beav.es/UcY> or call OSU Extension at 541-776-7371.

Registrants will receive a link to the recording after the class. Cost is \$15 or sliding scale.

Fees help support the Land Steward Program. For more info, email [rachel.werling@oregonstate.edu](mailto:rachel.werling@oregonstate.edu).

The **Sustainable Living Series** is presented by the Oregon State University Extension Land Steward Program, Master Gardener™ Program, and the Jackson Soil & Water Conservation District.

OSU Extension Service prohibits discrimination in all its programs, services, activities, and materials. Accommodation requests related to a disability should be made 7 days prior to Rachel Werling 541-776-7371, or [rachel.werling@oregonstate.edu](mailto:rachel.werling@oregonstate.edu).
