

Are pleased to announce

An afternoon
with **Jim Linnell**

Join us for a short tour
of Elktracks Studio
and a Swivel Knife Lesson

Please join us for the 5th in a series of Beginning Leathercraft Classes presented by the Cascade Leather Artisans, Deschutes County 4-H Club and guest instructor Jim Linnell. Jim will be joining us via the magic of Video Conference from Venus, Texas.

Jim has taught leather working skills to thousands of students around the world. His passion for the art has made him one of the most sought after instructors of our day and his students often get a history lesson on the art along with in-depth instruction.

SWIVEL KNIFE FINESSE: Without question, the swivel knife has been one of most challenging leather tools for many generations of leather workers. There are basic techniques that, once learned, can help you overcome most of these challenges. This work shop hits all of the important points of making a swivel knife work at its best. Once all of the good habits of swivel knife use are discussed and some of the bad habits are corrected, Jim will have participants create a design with their swivel knife alone, similar to the one pictured.

Where: 4-H Extension Office Bld 3
Deschutes County Fairgrounds
Redmond, OR

When: Sunday, March 8th, 2020
Time: 2:00 pm to 5:00 pm
